

# Your Compressed Air Sales & Service Partner

Harris is equipped to be your complete source for compressed air and vacuum equipment and service. We have a knowledgeable and diversified engineering and sales team to meet and exceed the industry's needs. No matter the application, Harris can provide the necessary equipment for smooth, reliable, and efficient operation.

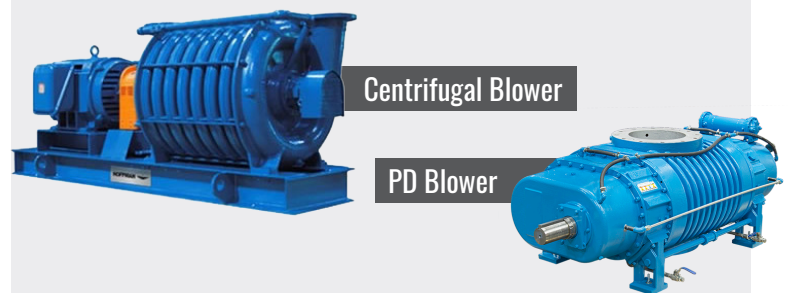

## Equipment

Harris offers a wide range of industrial systems and related equipment. We provide quality equipment backed by industry leading service and support. No matter what make or model you need, we can help.

### Compressed Air Equipment

### Blower/Vacuum Systems

### Electric Motors

### Parts

## Service & Repair

Along with quality equipment, we offer industry leading service and support on all makes and models of compressed air, blower, vacuum and related equipment.

- 24/7 Technical Service
- Electric Motor Services
- Gas Compressor Rebuilds
- Scheduled Filter/Oil Change
- Predictive Maintenance
- Training Classes
- Air & Vacuum Repair
- Compressor/Airend Rebuilding
- Electric Motor Repair

# Products by Group

## ▶ Air Compressors

Rotary Screw  
Reciprocating  
Portable Compressors

## ▶ Dryers

Desiccant Air Dryer  
Refrigerated Air Dryer  
Particulate, Coalescing Filters

## ▶ Blowers & Vacuum

Centrifugal Blowers  
Regenerative Blowers  
Liquid Ring Vacuum

## ▶ Parts

Air/Oil Filters  
Oil Separators  
Oils

## ▶ Electric Motors

New  
Reconditioned  
Rewind

## ▶ Systems

Valves  
Instrumentation  
Associated Items

## Brands We Can Provide

Through our strategic relationships within the Flow Control Group Family of Companies, Harris Equipment can provide customer access to the following brands:

## FCG is a Collection of World-Class Companies Dedicated to the Relentless Pursuit of Product & Service Excellence

### Harris Equipment is a Proud Member of the Flow Control Group Family of Companies

Flow Control Group (FCG) is a leading solutions provider focused on technically oriented products and services for the flow control, fluid handling and process & industrial automation sectors. We leverage the vast experience and expertise across our family of companies to provide customers unmatched access to engineering and technical service capabilities within a vast array of technologies, include:

- Air Compression, Dehydration & Purification
- Instrumentation, Measurement & Controls
- Process Automation
- HMI/SCADA and MES Software and Services
- Single-Use Components
- Motion Control, Machine Vision, Robotics & Safety
- Pumps & Controls
- Sealing, O-Rings & Materials
- Steam & Condensate
- Hoses, Tubing & Connectors
- Filtration & Purification
- Heat Trace & Transfer
- Corrosion Resistant and Flow Control
